

Technical data sheet – ECOSUN Basic

Product: Infrared heating panel ECOSUN Basic

Producer: Fenix s.r.o., Jeseník, ID 00535249

Purpose of use: heating of buildings (on the wall and ceiling)

Output: 300 / 600 / 850W

Voltage: 230 VAC

Covering: IP44

Mechanical resistance : IK10

Class: I.

Placing on the flammable objects : C and D

Length of connecting cable : 1 m

Surface treatment:

- Galvanized metallic plate
- Polyester powder coating RAL 9016 coarse structure, mat

Heating element:

Heating foil or fluoropolymer insulated heating wire

Electrical drawing:
